About Our Remanufactured Workstations

Our driving focus is to provide remanufactured and new products for Herman Miller A02 at a fraction of the cost of new. We currently maintain an inventory of over 80,000 panels allowing us to provide the best solution at the best price.

Workstations include remanufactured Herman Miller® panels with new top caps, fabric, work surfaces, pedestals, electric, and plastic basic. Connectors and components are sanded, washed, and painted using a state-of-the-art powder coat process that cures the paint at 400° F degrees.

Fabrics are from InterfaceFABRIC, Burch Fabrics Group, and CF Stinson. Many are Terratex®, beautifully made of 100% recycled materials using sustainable processes. All fabrics are class A fire rated and have passed UL fire rating for office panels. Work surfaces are 1½" thick with the same industrial grade core as Herman Miller®.

Quick Ship

Perfect for those under time constraints. Available in heights of 39", 47", and 67" and widths of 24", 30", 36", and 48". Fabrics are from InterfaceFABRIC's Broadcast line. Choose Serengeti with DT trim or Shade with MT trim. Work surfaces are Folkstone Grey or Wild Oats Matrix.
